PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience specializing in React, TypeScript, JavaScript, Redux, Redux Toolkit, Next.js, and Microfrontend architecture. Experienced in building responsive, high-performance web applications and scalable, modular frontend architectures. Strong expertise in RESTful API integration, state management, reusable component development, UI-backend integration, testing, debugging, and performance optimization. Experienced in collaborating with cross-functional teams to deliver maintainable, scalable, and user-focused web applications.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Next.js, Angular

State Management: Redux, Redux Toolkit, Context API

UI & Styling: Bootstrap, React-Bootstrap, Material UI, SASS, Tailwind

API & Integration: RESTful APIs, GraphQL, Web APIs

Backend & Databases: Node.js, Express, MySQL, PostgreSQL, MongoDB

Development: DOM, BOM, OOP, Asynchronous JavaScript, Monorepo, Microfrontend, and Data Structures

Version Control: Git, GitHub

DevOps & Deployment: AWS, CircleCI, Netlify

PROFESSIONAL EXPERIENCE

4Explain — Frontend Web Developer (ReactJS)

Feb 2023 – Present | Cairo, Egypt (Remote)

- Partnered with designers and backend developers to build scalable, user-focused web applications.
- Developed performant React and TypeScript interfaces with efficient state management using Redux.
- Built reusable frontend components and contributed to scalable, maintainable frontend architecture.
- Integrated frontend features with backend APIs and supported data-driven application workflows.
- Improved application stability and performance through testing, debugging, and continuous optimization.

PROJECTS

Rega Workspace

- Implemented frontend features and integrated them with backend APIs.
- Developed reusable and scalable UI components across multiple system modules.
- Collaborated on a modular and maintainable frontend architecture and resolved application issues.

Nearby Application [GitHub](#) | [Demo](#)

- Developed a map application displaying hotels, restaurants, and cafes from API data.
- Implemented a route feature using OpenStreetMap.
- Technologies: React, React-Leaflet, Tailwind.

E-Commerce Application [GitHub](#) | [Demo](#)

- Developed a responsive e-commerce application displaying products retrieved from an API.
- Implemented cart state management and dynamic total cost calculation.
- Technologies: React, Redux Toolkit, React-Bootstrap.

Dynamic Form Application [GitHub](#) | [Demo](#)

- Developed a dynamic form application that allows users to create forms and preview the generated form.

Dashboard UI Application [GitHub](#) | [Demo](#)

- Built a dashboard interface using React, Material UI, and Context API.

Movies Application [GitHub](#) | [Demo](#)

- Developed a React application for displaying movies and TV series using the TMDB API.
- Technologies: React, React Router, Bootstrap.

EDUCATION

B.Sc. in Systems and Biomedical Engineering

Faculty of Engineering, Cairo University | 2016 – 2021 | Very Good with Honors

CERTIFICATIONS

[Professional Front-End Web Development](#) — Udacity | 2022

[Advanced Full-Stack Web Development](#) — Udacity | 2022
